

Minutes of Parking, Transportation, Security Working Team Meeting  
Chinatown Working Group  
April 20, 2009

Location: Chatham Green Recreation Room (215 Park Row, basement)  
Time: 6pm-8pm

Attendance: Danny Chen, Jerry Cheng, Toby Turkel, Triple Edwards, Jerry Chan  
Via Phone: Lotus (SingTao)

The group discussed and arrived at 6 guiding principles for the team:

1. To strive for a balance in transportation, parking, and security
2. To foster community input and involvement
3. To advocate for "natural" designs and flows (a "go with the flow" approach to designs)
4. To take a "conservative" approach to proposed changes to physical layout
  - Take small steps towards an end goal
  - Measure the effectiveness/success/failure at each step and reassess the path from there
5. To try to re-establish lost parking
  - We lost municipal parking after 9/11
  - We want to attract visitors
  - We are near the Civic Center
6. To promote public transportation and plan for private transportation (buses, shuttles, etc)

This list is subject to amendment and refinement.
